Come together

After two years behind the video-screen, we want the life experience to take place and see, hear and feel with whom we are working within Inspire2Live. The screen is good and helped us build the World Campus, but it lacks the warmth of being together. In one room, with our advocates, we can work towards our common goal and that is to help the global cancer patient and give her a voice. Global cancer patients need to be heard, seen and felt.
