

- 
- Precision medicine for the global patient: reality or dream?

Innovative Health Initiative

- Move from “one size fits all” to tailor the right intervention to the right person at the right time.
- As a public private partnership, Innovative Health Initiative focuses on cross-sectoral approaches to facilitate the creation of new products and services to prevent, intercept, diagnose, treat and manage diseases and foster recovery more efficiently.
- Goal: to lay down foundations for the development of safer and more effective healthcare products or solutions that respond to unmet public health needs and that can be implemented into healthcare systems.

Innovative Health Initiative

Collaboration is in our DNA as an innovation catalyst

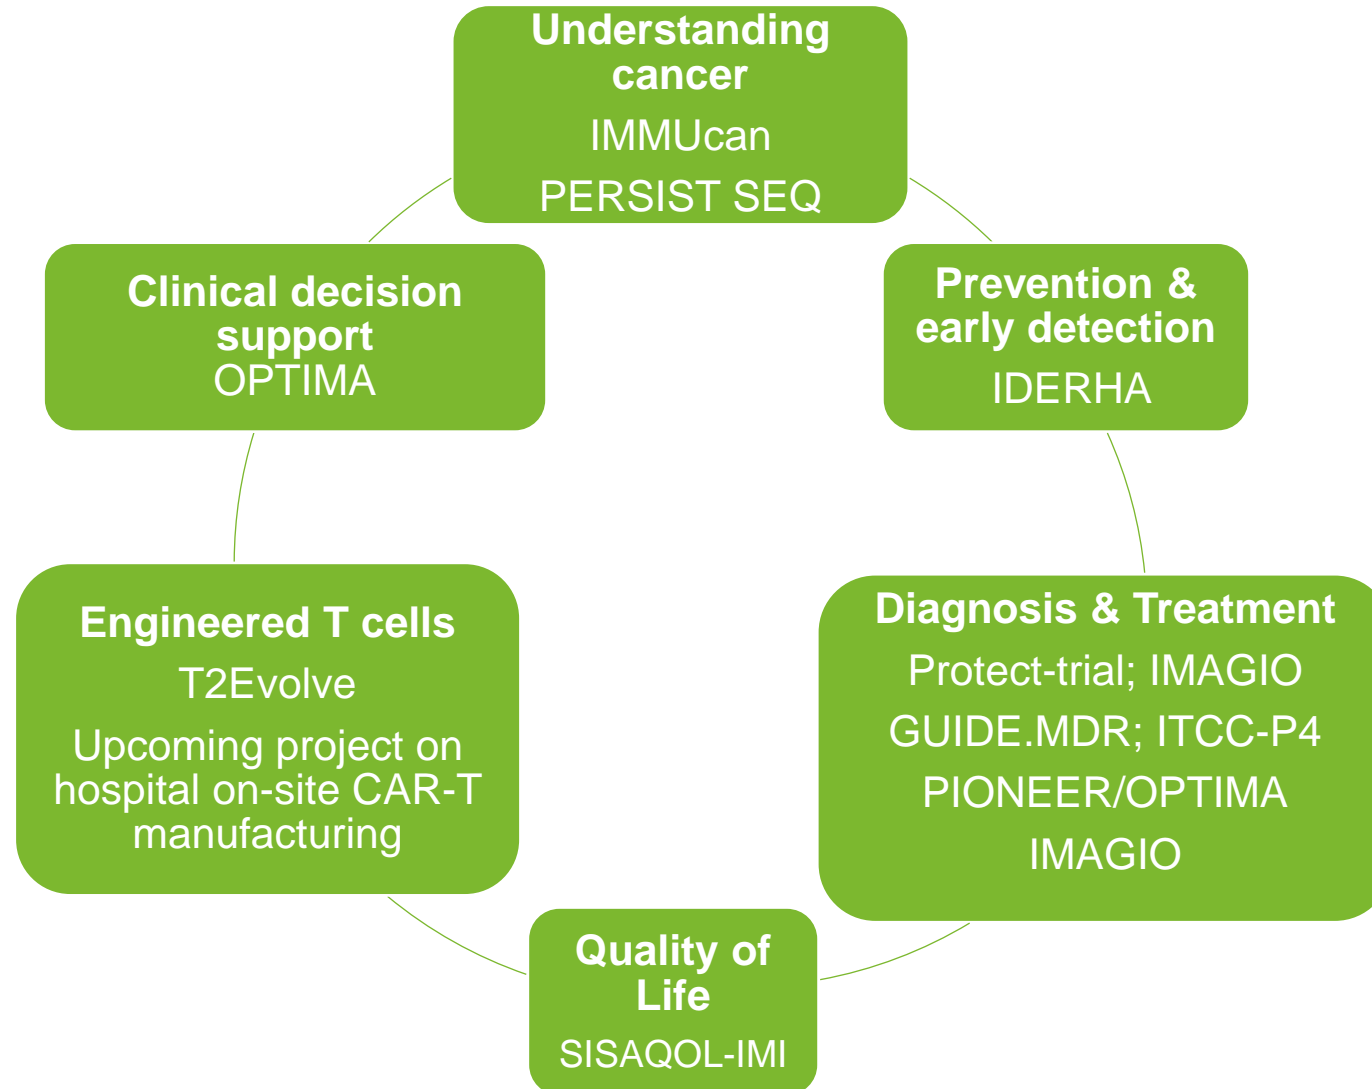

Power of bringing together different stakeholders involved in health research in public private consortia, breaking silos & building trust to address the drivers of competitiveness in health research & innovation

IHI: bold collaborations, transforming health

- More than 15 years of experience in public private partnership with 200 collaborative projects (IMI and IHI). In IHI projects, multiple healthcare stakeholders involved
- Numerous collaborations continued after IMI funding (e.g spin-off not-for-profit organisations, foundations, alliance, networks)
- While European focus, global reach and impact of results beyond Europe

e.g Med Safety App developed by Web-RADR project, a mobile app for smartphone users to report side effects of medicines directly to the regulatory authorities rolled out > 10 countries to date, from far afield as Pakistan to Nigeria and Armenia, Moldova.

IHI: Advancing oncology research

Implementing precision medicine

- Further research & innovation to advance the field and improve patient outcomes
- Data sharing – real world evidence
- Infrastructure and networks
- Models to assess added value
- Education and training of healthcare professionals
- Patient empowerment

IHI to pilot novel, applicant-driven approach to next call

Overall objective to fund pre-competitive research and innovation actions that are in line with the general objectives of IHI and address at least one of IHI specific objectives as set out in the IHI Strategic Research and Innovation Agenda (SRIA)

- untapped opportunities in IHI SRIA being turned into IHI project proposals
- ambitious, large-scale, public-private, cross-sector...
