MILLION

Cases

77%

INCREASE

We must collaborate to change this

# The Cancer moonshot 2.0. What is it about?

---

- USA President Biden re-ignited the Cancer Moonshot in May 2022 with the following 2 goals:
  - Reduce mortality from cancer by 50% in 25 years
  - Increase the quality of life for those living with and surviving Cancer
- The Global Health Catalyst engaged with the White House to extend the Cancer Moonshot globally = Cancer Moonshot 2.0

# The Cancer moonshot 2.0. facilitated by the Global Health Catalyst to Africa

---

- December 2022: The Cancer Moonshot announces over \$300 million extending the Cancer Moonshot to Africa during the U.S. Africa leader's summit
- Dr Jill Biden met with African First Ladies many who support the elimination of cervical cancer

# The Cancer moonshot 2.0. facilitated by the Global Health Catalyst to India

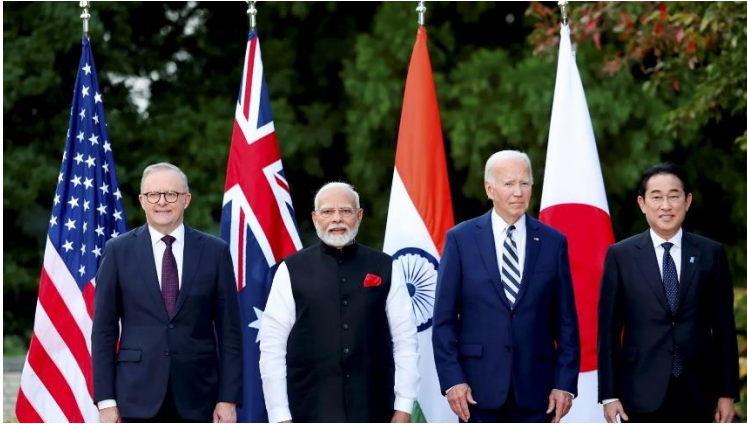

---

- June 23, 2023: White House Cancer Moonshot Announces Public and Private Sector Commitments to Reduce the Burden of Cancer in India
- Included Developing an artificial intelligence (AI)-enabled digital pathology platform that will be utilized for cancer diagnosis, prognosis, and prediction of therapeutic benefit, as well as AI-based automated radiotherapy treatment for cancers of the cervix, head, and neck.

# The Cancer moonshot 2.0. facilitated by the Global Health Catalyst to India, Australia, Japan

---

- September 21, 2024: Quad Countries Launch Cancer Moonshot Initiative to Reduce the Burden of Cancer in the Indo-Pacific
- The Quad Cancer Moonshot will serve to strengthen the overall cancer care ecosystem in the Indo-Pacific by improving health infrastructure, expanding research collaborations, building data systems, and providing greater support for cancer prevention, detection, treatment, and care.

# The Cancer moonshot 2.0. facilitated by the Global Health Catalyst towards establish a Global Cancer Fund

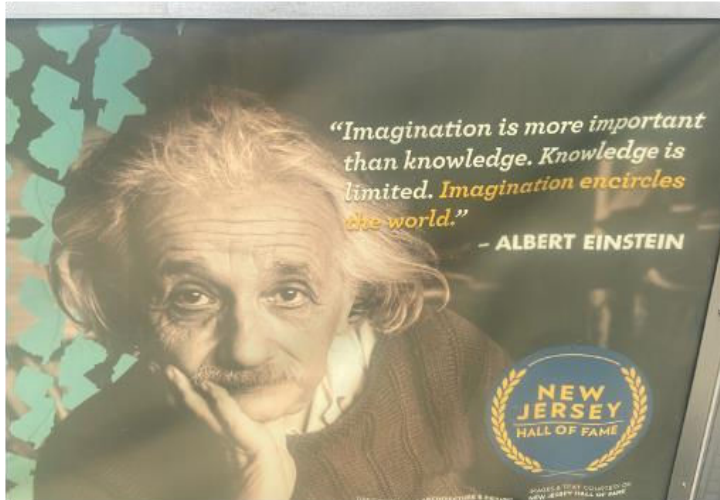

---

- October 25, 2024: Meeting at the White House towards establishing a Global Cancer Fund with Billions of Dollars per year
- Questions addressed during the White House Meeting:
  - Why is this important today?
  - Do you support this?
  - How should it be structured?
  - What partnerships should be created?
  - What can we learn from previous Global Funds like for HIV/AIDS etc?

# The Cancer moonshot 2.0. facilitated by the Global Health Catalyst towards establish a Global Cancer Fund

---

- Now: Imagine if we could all collaborate in support of establishing this Global Cancer Fund
- Question for each of you: What **one thing** would you recommend as a priority area to using the Global Cancer Funding for in addressing the burden of cancer **and why?** E.g.
  - workforce development?
  - Research
  - Cervical Cancer Elimination?
  - Breast Cancer?
  - Telemedicine infrastructure?
  - Other?

# The Cancer moonshot 2.0. facilitated by the Global Health Catalyst towards establish a Global Cancer Fund

---

- Now: Imagine if we could all collaborate in support of establishing this Global Cancer Fund
- **Would you support the effort by the White House in public private partnerships working with Inspire2Live towards establishment of a Global Cancer Fund?**

Join us at Harvard/MIT June 5-8 2025, to celebrate 10 years of the GHC and progress on the Cancer Moonshot

Thanks very much!
